OWNING A VEHICLE

The vehicle will be registered on the Europe-Roadtrip.com company.

Liability

During your roadtrip, you are responsible for the vehicle like if you purchase something in your own country. Most vehicles are being sold with no warranty which means that you are the acting owner of the vehicle at any stage of your trip.

Restrictions

The only contractual restrictions are a flexible mileage limit that is based on your period and vehicle

Country restrictions

Besides Ukraine or liable countries, most countries are okay to travel for. The UK, Turkey or Serbia are all ok.

TERMS & CONDITIONS

Mediation contract between you (buyer) and Harro (mediator)

Contract

The buyer is liable for the vehicle and is acting as the owner of the vehicle in any circumstance besides failure of payments or failure to deliver the vehicle in the expected period.

The contract states a kilometre limit based on the service periods due. extra mileage can always be bought by the buyer or discussed with the seller.

The buyback price is based on full periods which means there is no difference between the buyback price when you deliver early unless it is discussed with the seller. extra costs can be charged when selling it back after the discussed period.

The downpayment is used for service and securing the vehicle, it will not be returned upon cancelling the trip, however, in agreement with the seller, it can be used for future periods.

The buyer is responsible for the acceptance of the vehicle upon arrival, it's the buyer's responsibility to check whether the vehicle is up to the buyer's standard.

Finally, the repurchase price will be based on the discussed buyback price minus the overdue payments, damage, fines or other costs made by the buyer.

Insurance claims will be held with a € 2000,- excess per damage.

Fines or violation tickets will be paid with a € 30,- administration fee and sent to you by separate invoice.

The vehicle is registered in the company's name. it will be registered on our German Company Camperfun GmbH or the Dutch company Europe-Roadtrip.com under the name of Harro Mulder.
